Professional Experience

2016 – 2020 Burlington, ON	**Cashier / Baker,** *Denninger's Foods of the World* • Part-time position working cash and bakery department; Have been given the responsibility to close bakery department when required by management.
06/2018 – 08/2018 Mississauga, ON	**IT Intern,** *ARTERRA Wines Canada* • Served as a help desk worker on an IT team in aiding employees with their IT needs and issues via in-office aid and through phone instructions. • Factory reset computers and added the specialized Arterra operating system to the computers. • Helped repair printers, laptops, desktop computers and other tech equipment at the Arterra headquarters. • Set up desktop phones and computer workstations for new employees.

06/2018 – 08/2018
Burlington, ON

Help Desk Co-op, *Halton Industry Education Council*
- Help Desk: Assisted with any IT issues including laptop repair, photo copier repair, printers, maintenance
- Computer Hardware Inventory

07/2016 – 07/2016
Hamilton, ON

SFS Junior Leader,,
Sports Fitness School, McMaster University
- Gained experience as a leader for future "SFS Camp Leader" opportunities; This program helped train me to develop my leadership skills while playing an integral part in delivering McMasters' summer programs.
- All programs include a written evaluation and letter certifying 25 volunteer hours- furnished upon request

Projects

03/2022 – 04/2022

Dentistry Database Project,
Made with: Heroku, PostgreSQL, HTML, Java ⧉
This project was made in a team of 4 students for my Database 1 class in university. It consisted of building a database system for a local dentistry chain, equipped with roles for each type of employee and patient as well as actions such as booking appointments and gathering information on patient records.

05/2021 – 07/2021

Course Manager App, *Database Course Project*
- Implemented student course managing application. Where students can register for courses conducted by instructors. Administrators manage courses that instructors and students interact with.
- Contributed to the back end of the app, connecting relevant information to the database, using Firebase Database to store and retrieve data on courses and users.
